

## KTI's DIN-Rail Media Converter Solutions

### What is DIN-Rail?

DIN-Rail is U-shaped metallic rack designed based on DIN EN 50022 specification for consistent, easy and quick installation of electronic devices. It is widely used in industry for building electrical cabinets, and is relatively more economic and robust compare to alternative mounting options. In addition to cabinets, DIN-Rail can be installed on racks, walls, and variety choices of cabinets, which permits flexible installations.

### Advantages of DIN-Rail mounting

- Far from ground level for low moisture, dusts, and better ventilation.
- Better and fast access for installation and maintenance.
- Flexible mounting environment.
- Minimal setup cost

### DIN-Rail Specifications

KTI's new DIN-Rail media converters are designed to fit 35mm DIN-Rails. 35mm DIN-Rails are available in different specifications for variety installation needs. The list below indicates commonly used 35mm DIN-Rails.
