

KGC-311

*Multimode to Single Mode
Optical Fiber Media Converters*

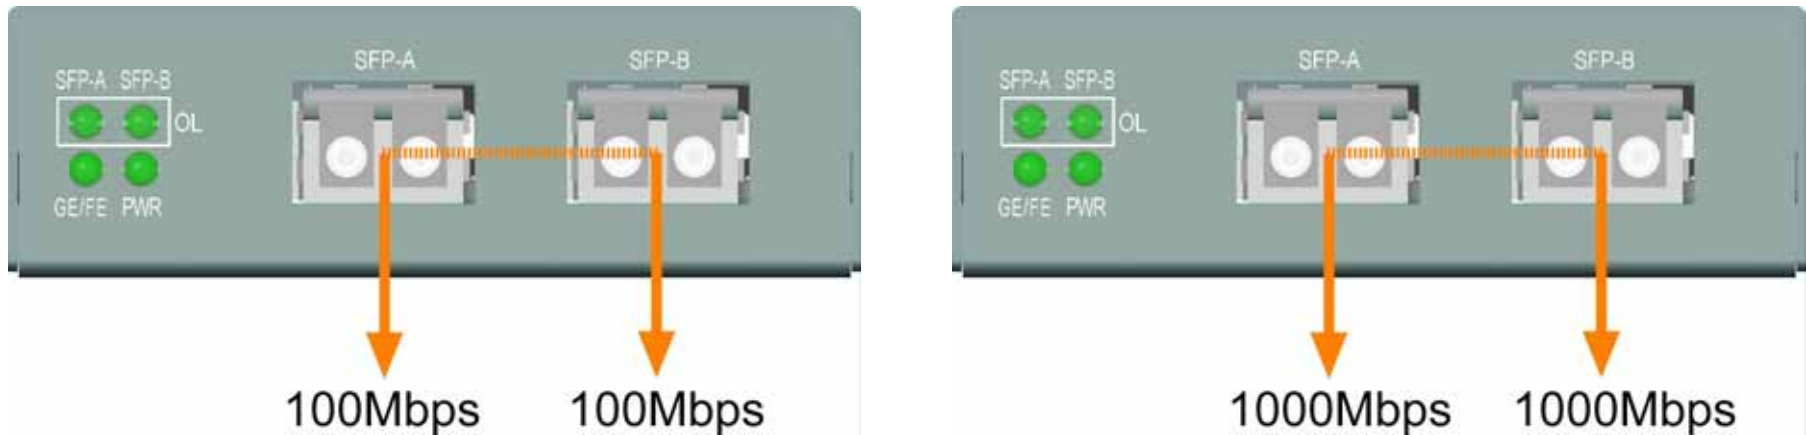

Conversion

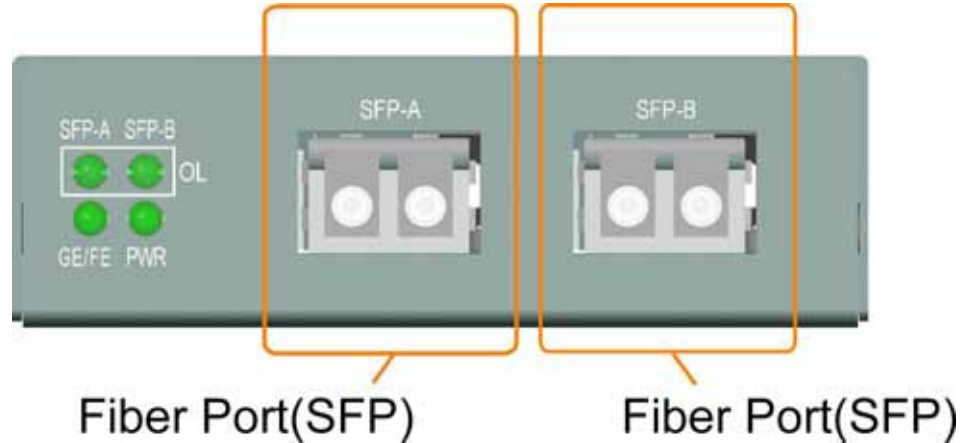

- 100Mbps FX to/from 100Mbps FX
- 1000Mbps FX to/from 1000Mbps FX
- MMF to/from SMF

Benefit 1: Dual Speed Support

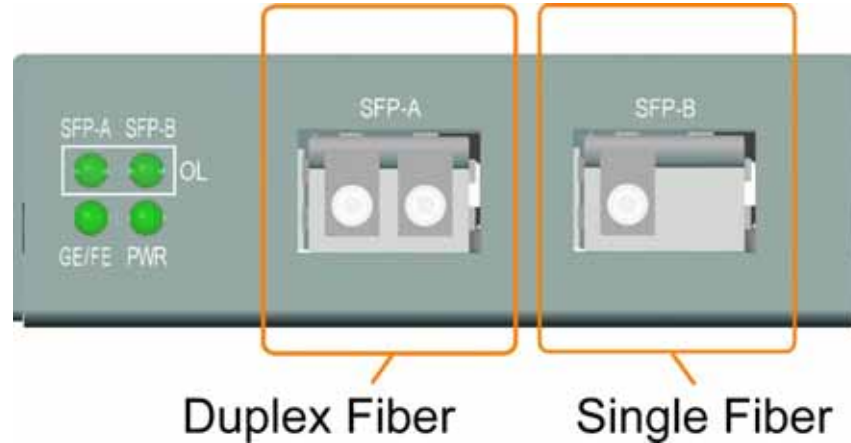

Supports both 1000Mbps Gigabit Ethernet fiber and 100Mbps Fast Ethernet fiber applications

Benefit 2: SFP Flexibility

Support standard SFP fiber transceivers

Benefit 3: Duplex to Single

Application 1: 100M MMF to 100M SMF

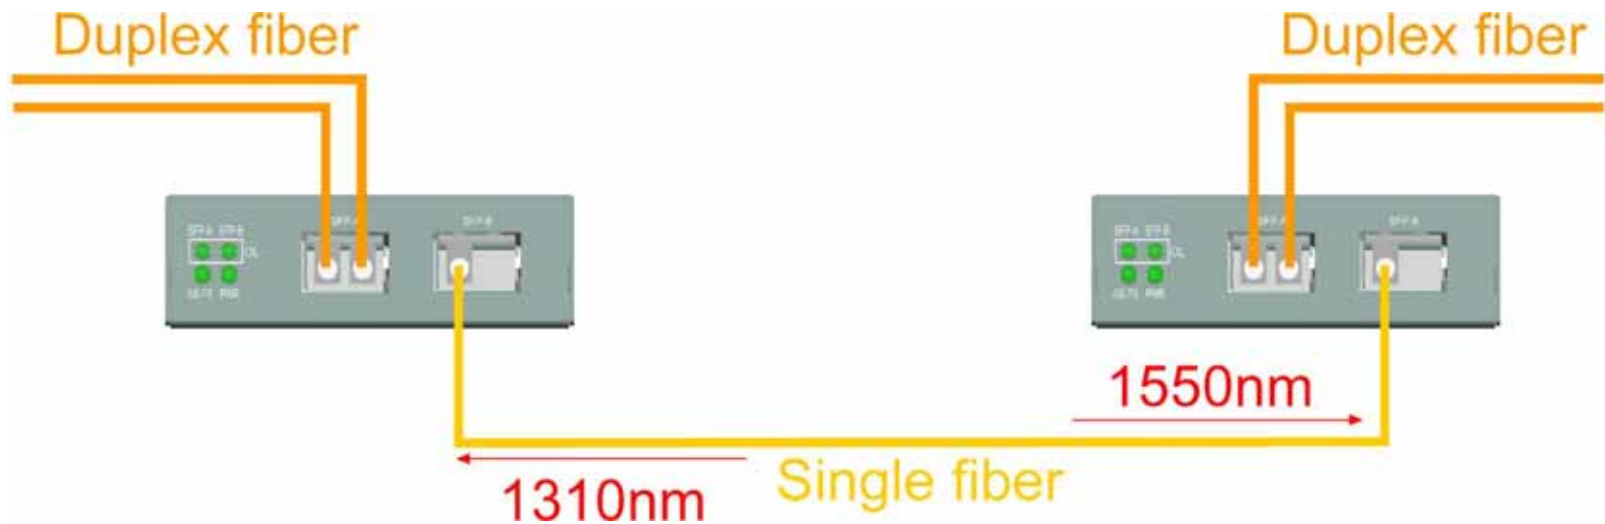

Support single mode fiber up to 120km

Application 2: 1000M MMF to 1000M SMF

Support single mode fiber up to 70km

Application 3: Bi-Di Single Fiber

Support duplex fiber to single fiber

Application 4: Wavelength Conversion
